

A modern office interior featuring a prominent wooden staircase with glass railings. The space is bright, with large windows in the background. In the foreground, there are wooden shelving units. The overall aesthetic is clean and contemporary, emphasizing natural materials like wood and glass. A semi-transparent green overlay covers the left and top portions of the image, serving as a background for the text.

# ABOUT LAMBRI

---

## Lambri® stands for Innovation and adapts quickly to market developments.

Our products connect design with acoustic solutions leading to an extraordinary vision and sound experience in any room. The total manufacturing process, from veneer selection to painting, is performed in-house and with more than 50 year of experience we can state that we are excellent in producing sustainable products. Lambri delivers turn-key acoustic solutions for the interior- and construction industry that will make a difference.

Our unique and high-quality products are partly powered by nature. Therefore, our goal is to preserve and protect the environment where possible. By using our acoustic solutions, one is brings nature closer to people with an environmental friendly and sustainable decoration. In such a setting people are more comfortable and it fosters creativity leading to idea development.

## Sustainable manufacturing

We use certified wood for our products to ensure protection of forests. Furthermore, Lambri only uses materials that are both human and environmentally friendly. In order to keep our sustainable promise, our company runs on green energy and we reuse any residual energy from the manufacturing process. In addition, all waste materials are separated to enable full recycling. We live by our corporate social responsibility promise and our strategy is focused on people – planet – profit. Sustainability of the total value chain is our key to continuity and innovation. Therefore, profits are used to improve processes, products and working conditions within the company and its suppliers.

Raw materials used for our products with a wooden finish are from certified forests. Lambri promises to preserve and protect nature and therefore we are therefore we are FSC ® certified (SCS-COC-000652-XB).
